The student chapter of Engineers Without Borders-USA at Cal Poly, San Luis Obispo was founded in 2005 by a core group of students dedicated to making a global impact.

Recently honored as the *Premier Student Chapter* by EWB-USA, the enthusiasm and passion of Cal Poly students is not only seen in the successful project history, but also in the growth of the organization. Within the past two years membership has tripled to a total of over 200 active members looking to make a difference in purposeful projects.

## ENGINEERS WITHOUT BORDERS (continued from page 1)

Student members will provide background information about the national vision and mission, as well as the impact of Cal Poly's chapter on the communities they serve by following the philosophy of Learn by Doing Good.

Student members are currently working on projects in three countries:

**Thailand Team:** Working in Huai Nam Khun focusing on water filtration (left)

**India Team:** Working in Sainji to implement sanitation solutions (right)

## RETIRED FACULTY AND STAFF CENTENNIAL SCHOLARSHIP

The Fair Market Value of the Centennial Scholarship looked strong closing out the third quarter of the calendar year. Being subject to fluctuations in the economic market it is likely the value dropped somewhat after the General Election and the sell off that occurred during the days that followed. Still, we are confident it remains in good hands and strong enough to continue to support an annual scholarship to a promising incoming freshman.

**Fair Market Value (September 30, 2012): \$97,625**

Please keep in mind that your designated contributions and life time membership fees go directly into the endowment's Principal balance and provide the anchor needed for continued scholarship funding. Thank You to all who continue to support this effort.
